

General Introduction	1-25
Chapter 1:	26-62
1A) Synthesis of MCM-41 as well as Loading of amino acids (L-Arginine & Cysteine) and drugs (Aspirin, Captopril and Camptothecin) into MCM-41	26-47
Experimental	
➤ Materials	
➤ Synthesis of the MCM-41	
➤ Loading of amino acids/ drugs into MCM-41	
Results and Discussion	39-47
Characterization	
➤ Thermal Analysis	
➤ Fourier Transform Infrared Spectroscopy	
➤ BET surface area	
➤ Powder XRD	
➤ TEM	
1B) Functionalization of MCM-41 using 12-tungstophosphoric acid (TPA) Loading of amino acids (L-Arginine & Cysteine) and drugs (Aspirin, Captopril and Camptothecin) into TPA-MCM-41	48-62
Experimental	
➤ Materials	
➤ Functionalization of the MCM-41 by TPA	
➤ Loading of amino acids/ drugs into TPA-MCM-41	
Results and Discussion	51-62
Characterization	
➤ Elemental Analysis	
➤ ²⁹ Si and ³¹ P MAS-NMR	
➤ Thermal Analysis	

- Fourier Transform Infrared Spectroscopy
- BET surface area
- Powder XRD
- TEM

Conclusion

References

Chapter 2: In vitro release study of Amino acids (L-Arginine and Cysteine) from MCM-41 and TPA-MCM-41 63-82

Introduction 65

In vitro release of L-Arginine 66-67

Experimental

- Materials
- Preparation of Simulated body fluid (SBF) and Simulated gastric fluid (SGF)
- Preparation of Calibration curve for L-Arginine
- In vitro controlled release of L-Arginine

Results and Discussion 68-70

Kinetics and Mechanism 71-73

In vitro release of Cysteine 74

Experimental

- Preparation of Calibration curve for Cysteine
- In vitro controlled release of Cysteine

Results and Discussion 75-77

Kinetics and Mechanism 78-80

Conclusion 81-82

Chapter 3: In vitro controlled release study of drug (Aspirin, 85-116

**Captopril and Camptothecin) from MCM-41 and TPA-
MCM-41**

Introduction	85-87
In vitro release of Captopril	88
Experimental	
➤ Preparation of Calibration curve for Captopril	
➤ In vitro controlled release of Captopril	
Results and Discussion	89-94
Kinetics and Mechanism	
In vitro controlled release of Aspirin	95
Experimental	
➤ Preparation of Calibration curve for Aspirin	
➤ In vitro controlled release of Aspirin	
Results and Discussion	96-103
Kinetics and Mechanism	
In vitro controlled release of Camptothecin	104
Experimental	
➤ Preparation of Calibration curve for Camptothecin	
➤ In vitro controlled release of Camptothecin	
Results and Discussion	105-110
Kinetics and Mechanism	
Cytotoxicity study	111-112
➤ In Vitro Study	
➤ Cytotoxicity Assay	
➤ Evaluation of in vitro cytotoxicity-MTT assay	
Conclusion	113-116
References	

Chapter 4:	117-143
4A): Synthesis of MCM-48 as well as Loading of amino acids (L-Arginine & Cysteine) and drugs (Aspirin, Captopril and Camptothecin) into MCM-48	121-129
Experimental	121-122
➤ Materials	
➤ Synthesis of the MCM-48	
➤ Loading of amino acids/ drugs into MCM-48	
Results and Discussion	122-129
Characterization	
➤ Thermal Analysis	
➤ Fourier Transform Infrared Spectroscopy	
➤ BET surface area	
➤ Powder XRD	
➤ TEM	
4B): Functionalization of MCM-41 using 12-tungstophosphoric acid (TPA) Loading of amino acids (L-Arginine & Cysteine) and drugs (Aspirin, Captopril and Camptothecin) into TPA-MCM-41	130-143
Experimental	131
➤ Materials	
➤ Functionalization of the MCM-48 by TPA	
➤ Loading of amino acids/ drugs into TPA-MCM-48	
Results and Discussion	131-141
Characterization	
➤ Elemental Analysis	
➤ ²⁹ Si and ³¹ P MAS-NMR	
➤ Thermal Analysis	
➤ Fourier Transform Infrared Spectroscopy	

➤ BET surface area	
➤ Powder XRD	
➤ TEM	
Conclusion	142-143
References	
Chapter 5: In vitro release study of Amino acids (L-Arginine and Cysteine) from MCM-48 and TPA-MCM-48	144-158
Experimental	147-151
In vitro controlled release of L-Arginine	
Results and Discussion	
Kinetics and Mechanism	
Experimental	152-157
In vitro controlled release of Cysteine	
Results and Discussion	
Kinetics and Mechanism	
Conclusion	158
Chapter 6: In vitro controlled release study of drug (Aspirin, Captopril and Camptothecin) from MCM-48 and TPA-MCM-48	159-190
Experimental	160-165
In vitro release of Captopril	
Results and Discussion	
Kinetics and Mechanism	
In vitro release of Aspirin	166-173
Results and Discussion	
Kinetics and Mechanism	
In vitro release of Camptothecin	174-180
Results and Discussion	
Kinetics and Mechanism	
Cytotoxicity study	181-182

➤ In Vitro Study	
➤ Cytotoxicity Assay	
Evaluation of in vitro cytotoxicity-MTT assay	
Conclusion	183-184
Effect of carrier on drug release	
In vivo release study of CPT/MCM-48 and CPT/TPA-MCM-48	185-190
Experimental	
➤ Preparation of Calibration curve in Chloroform-methanol	
➤ Calibration in Blood plasma mixture	
➤ Animal study	
➤ In vivo release and Pharmacokinetic study	
Results and Discussion	
Conclusion	
Annexure	191-244
Main Conclusion	245-246
List of published papers	247-249
Papers presented in national and international conferences
