## Acknowledgement

This piece of work will never be accomplished without many people behind my life for inspiring, guiding and accompanying me through thick and thin to complete my research work. I am very grateful to my research supervisor **Professor Shailesh R. Shah** for his valuable and inspiring guidance throughout my research work. There are no adequate words to explain his keen interest, immense patience, kind advice, sustained encouragement, constant help and thought provoking discussions that I had with him during this time. I am grateful to him for revealing me the richness of some basic synthetic organic chemistry. It was a great experience to work with and learn so many things from him both as a scientist and as a human being. It has been a great pleasure and I really enjoyed working with him.

I would like to express my sincere gratitude to **Professor H. R. Kataria**, Dean, Faculty of Science for the solid support and kind help whenever needed at each and every steps of the journey of my research.

I am thankful to Department of Chemistry, The Maharaja Sayajirao University, Baroda and **Prof. A. U. Patel**, Offg. Head, Department of Chemistry, **Prof. N. D. Kulkarni** and **Prof. B. V. Kamath**, former Heads of the Department for giving me an opportunity to join the department for pursuing my research work and providing all necessary infrastructure facilities to conduct my research work.

I especially thank **Prof. R. C. Tandel**, Head, Department of Applied Chemistry, my PG dissertation guide with whom I have started my journey of research in chemistry.

I am grateful to the UGC, New Delhi for research fellowship under the UGC major research project, “**Synthesis and Characterization of new Oxazole containing Pharmacophores and their Biological Evaluation as Antidiabetics**” and **Temporary Assistant Professor** position at the Department of Chemistry, The Maharaja Sayajirao University, Baroda for financial support in the form of fellowship and salary during my research tenure.

---

I would like to acknowledge *DST-PURSE* and *DST-FIST* funded single crystal X-ray diffractometer and 400 MHz NMR facilities at the Maharaja Sayajirao University, Baroda.

I am highly thankful to all the in-charge teachers and instrument committee members of the different instruments for analysis.

I am very grateful to *Zydus Research Centre*, Ahmedabad, India for mass analysis as well as Antidiabetic activity and Anti-inflammatory activity study.

I am thankful to *NCI* (National Cancer Institute), USA for the anticancer screening study.

I would like to thank *NIRT* (National Institute for Research in TB), Chennai for antitubercular activity study.

I am thankful to *Microcare Laboratory*, Surat for antibacterial and antifungal activity study.

I wish to offer my sincere thanks to *Dr M. R. Yadav* and *Mr. Mayank Sharma*, Faculty of Pharmacy, MSU Baroda and *Mr. Dushyanth Reddy*, Department of Pharmaceutical Chemistry, KLE University College of Pharmacy, Belagavi for docking study.

I am thankful to all teaching and non-teaching staff of Department of Chemistry for their constant support and kind help through out of my research work.

I would like to thank all my lab colleagues (*Dr. Arpita madam, Dr. Rina Soni, Sunil Dutt, Rudra Dave, Dr. Jigar Soni, Dr. Radhika Baloni, Jayvir*) for their cooperation and support. I thank my other fellow researcher *Dr. Vishwanath, Dr. Harnish, Dr. Ronak, Dr. Nilesh, Dr. Shardul, Dr. Nishant, Dr. Kushan, Viraj, Rahul, Mohini, Dr. Jigar, Dr. Heta, Dr. Tarun, Kiran Sir, Dr. Divyesh Patel, Dr. Mehul, Dr. Sanjay, Aditya, Gaurav, Riddhi, Ketan, Chirag, Dr. Hemant, Irfan, Nisha* for the stimulating discussions and for all the fun we have had during my research period.

---

I am lucky to have *Hiten Raval, Tirthesh Parekh, Prakash Rathva, Pratap Barad, Nilesh Rathva, Mahesh Marand, Paras Dave, Sudhanshu Manat* and *Sanket Mistry* as my best friends. I appreciate their inspiration, encouragement and motivation given to me throughout my research tenure and till date.

Most importantly, none of this would have been possible without the love and patience of my family. I express my special gratitude to my parents *Dulabhai Katariya* and *Rajiben Katariya*, who always believed in me and guided me for being my strength all these years. I thank them for inculcating the values of education which, I think, makes me a better person and a better researcher.

I am heartily thankful to my elder brother *Shailesh Katariya* for his constant support and encouragement throughout my research work.

My sincere thanks and affection is extended to an amazing woman in my life my dearest wife *Heer Katariya* for her cooperation and selfless love.

Above all, I owe it all to Almighty God for granting me the wisdom, health and strength to undertake this research task and enabling me to its completion.

**Kanubhai D. Katariya**
