## Acknowledgement

Completion of this research work was possible with the support of several people. I would like to express my sincere gratitude to all of them. First of all, I am extremely grateful to my research guide, Prof. Ashutosh V. Bedekar, Professor, Department of Chemistry, Faculty of Science for his valuable guidance, scholarly inputs and constant encouragement which I was fortunate to receive throughout the research work. I know him from the days of my graduation and had the privilege to work under his guidance during my M. Sc dissertation. I consider it as a great opportunity to do my Ph.D. work under his guidance. He has shown active interest in my work and has always been available to advise me. I am very grateful for his motivation, enthusiasm, and immense knowledge that make him a great mentor. He is a person with positive outlook, which has always uplifted my interest to do new things in research. Also his patience, flexibility and genuine concerns made my tenure of my research comfortable and pleasant experience.

I am thankful to Professor A. U. Patel, Head, Department of Chemistry, for allowing me to use the infrastructural facilities and motivation during my research work. I'm also thankful to the former Head, Professor. B. V. Kamath for his support during the initial phase of my work which was continued by Professor N. D. Kulkarni for the latter part of my research work.

The financial support obtained in the form of a (CSIR-JRF) fellowship from the Council of Scientific and Industrial Research (CSIR) New Delhi is gratefully acknowledged.

I am also thankful to the faculties of our department for their valuable guidance whenever needed. I express my thanks to Prof. S. R. Shah for allowing me to learn and handle NMR instrument and for his support. I would also like to thank Dr. Sujit Baran Kumar and Dr. Amar Ballabh for their constant guidance in single crystal X-ray analysis. I wish to extend my gratitude to Dr. Hemant P. Soni for his help and assistance with fluorescence analysis. I am also thankful to Prof. S. S Soman, Dr. Arun L. Patel, Dr. V. K. Singh and other members of teaching staff for their valuable inputs during the course of this work.

I would like to thank Prof. V. K. Singh (formerly associated with IIT-Bombay) for fruitful discussions and help with some NMR and HRMS analysis. I wish to specially thank Dr. Suban K. Sahoo from SVNIT Surat for his help with computational studies.

I would like to extend my sincere gratitude towards Mr. Jayaraman Kannappan, Apicore Pharmaceuticals Ltd. for helping with various analysis during the course of my research work. I am also grateful to him for his valuable suggestions during the period of my research. I am also thankful to Dr. S. P. Sahoo and his team at Sun Pharma Advanced Research Centre Vadodara for helping me with some NMR analysis.

I would like to specially thank Dr. Hemant M. Mande for his unconditional and timely help with Single crystal X-ray analysis for various crystals involved in this work. I would specially like to thank all the instrument operators from the department for their timely help to complete this work. I would like to thank Mr. Gourav Upadhyay for NMR analysis. I would also like to thank Dr. M. Shyam Sundar for mass analysis and Dr. Krupa Patel for her help with UV-Vis and Fluorescence Spectroscopy.

I would like to extend my sincere acknowledgment to the office staff of chemistry department, especially Mr. K. J. Rane and Mrs. Revathi Ganesh. I convey special acknowledgement for their help in regards to all official activities related directly or indirectly to my work. Amongst the non-teaching staff members I would like to thank Kirti ben, Makwana bhai, Deepak bhai, Raju bhai, Ninad bhai, Vinod bhai, Lokhande bhai, Vasant bhai, Dinesh bhai, and all others for extending basic help for my research.

I am extremely grateful to my lab colleagues Dr. Harish R. Talele, Dr. Akeel Saiyed, Dr. Anju Chaudhary, Dr. Nilesh Jain, Dr. Krupa Patel, Dr. M. Shyam Sundar, Mr. Gourav Upadhyay, Ms. Riddhi Gupta, Ms. Blessy Rajan, Mr. Hiten Rawal, Mr. Ketan Maru and Ms. Esha Bhalodi for making Lab-01 the best place to work at. It is a pleasure to thank Ms Riddhi Gupta and Mr. Sudeep G. Samanta with whom I have collaborated on their dissertation work. I thank all of them for their help, co-operation, fruitful discussions and friendly association during my Ph.D. work.

I would like to thank my department friends and colleagues Mr. Nishant Anasane, Mr. Rahul Bhatt, Dr. Mehul Sadhu, Dr. Harnish Soni, Dr. Puran Rathore, Dr. Ishani Sahay, Dr. Heta Patel, Mr. Viraj Bhanvadia, Mr. Irfan Shaikh, Dr. Rinky Singh, Dr. Priyanka Yadav, Dr. Arti Bhadoria, Mr. Kanu Kataria, Mr. Aditya Puranik, Ms Khushboo Bhanderi,

---

---

---

---

Mr. Chirag Savani and all other research students of the department for their generous help and cooperation. It needs a special mention for my friends Mr. Vinay Kadam and Dr. Sanjay Yadav for being constant source of inspiration and for everything they did for me, I sincerely thank all of them.

Most importantly, none of this would have been possible without the love and patience of my family. I express my special gratitude to my parents Smt. Heena N. Khanvilkar and Lt. Shri. Narendra A. Khanvilkar, who always believed in me and guided me. I thank them for inculcating the values of education which, I think, have contributed to make a better person and a better researcher.

I would also like to express my gratitude to all those whom I may have failed to mention above, but nonetheless have contributed to my research studies in one way or the other.

Above all, I owe it all to Almighty God for granting me the wisdom, health and strength to undertake this research task and enabling me to its completion.

*Mr. Aditya N. Khanvilkar*
