
Contents

Chapter 1	Introduction	1-17
	1.1.1 <i>Chirality: Definition and its Types</i>	1
	1.1.2 <i>Asymmetric Synthesis</i>	2
	1.1.2.1 <i>Chiral Catalysts</i>	2
	1.1.2.2 <i>Chiral Auxiliary</i>	4
	1.1.3.1 <i>Molecular recognition by NMR Spectroscopy</i>	7
	1.1.4.1 <i>Molecular recognition by Fluorescence Spectroscopy</i>	10
	1.2 <i>References</i>	15
Chapter 2	Synthesis and Application of Chiral Aza-crown ethers and Aza-macrocycles	18-92
	2.1 <i>Introduction</i>	18
	2.2 <i>Result and Discussion</i>	22-36
	2.2.1 <i>Synthesis of chiral aza-crown ether</i>	22
	2.2.2 <i>Application of chiral aza-crown ether as Chiral Solvating Agent (CSA)</i>	23
	2.2.3 <i>Synthesis of chiral aza-crown ethers with aromatic linker</i>	23
	2.2.4 <i>Application as Chiral Solvating Agent (CSA)</i>	25
	2.2.5 <i>Synthesis of chiral aza-macrocycles</i>	26
	2.2.6 <i>Applications of chiral aza-macrocycles</i>	27
	2.3 <i>Conclusion</i>	37
	2.4 <i>Experimental Section</i>	38
	2.5.1 <i>Spectral Data</i>	47
	2.5.2 <i>X-ray Data</i>	78
	2.5.3 <i>CSA Spectras</i>	81
	2.5.4 <i>UV-Vis and Fluorescence Spectras</i>	88
	2.6 <i>References</i>	90

Chapter 3	Synthesis, Resolution and Application of Cyclohexanol Derived Chiral Auxiliary	93-183
3.1	<i>Introduction</i>	93
3.2	<i>Result and Discussion</i>	97-112
3.2.1	<i>Synthesis of auxiliary</i>	97
3.2.2	<i>Enzymatic resolution of alcohols</i>	98
3.2.3	<i>Determination of absolute configuration</i>	100
3.2.4	<i>Deracemization of α-halo acids</i>	101
3.3	<i>Conclusion</i>	113
3.4	<i>Experimental Section</i>	114
3.5.1	<i>Spectral Data</i>	127
3.5.2	<i>X-ray Data</i>	171
3.5.3	<i>Computational Studies</i>	175
3.6	<i>References</i>	181
Chapter 4	Synthesis, Resolution and Application of Cyclohexanol derivatives in Enantiomeric Recognition	184-248
4.1	<i>Introduction</i>	184
4.2	<i>Result and Discussion</i>	188-204
4.2.1	<i>Synthesis of 2-(quinolin-8-yloxy)cyclohexan-1-ol</i>	188
4.2.2	<i>Synthesis of 2-(quinolin-8-yloxy)cyclohexan-1-ol</i>	188
4.2.3	<i>Determination of absolute configuration</i>	189
4.2.4	<i>Application as Chiral Solvating Agent</i>	191
4.2.5	<i>Application as Fluorescent sensor</i>	197
4.2.6	<i>Synthesis of amino alcohol</i>	201
4.2.7	<i>Enzymatic Resolution of amino alcohol</i>	202
4.3	<i>Conclusion</i>	205
4.4	<i>Experimental Section</i>	206
4.5.1	<i>Spectral Data</i>	210

4.5.2 <i>CSA Spectras</i>	223
4.5.3 <i>X-ray Data</i>	237
4.5.4 <i>UV-Vis and Fluorescence Spectras</i>	241
4.6 <i>References</i>	246
