

Contents

Chapter 1	Introduction	1-24
1.1	Catalyst	1
1.2	Types of catalyst	2
1.3	Heterogenous catalyst and its applications	3
1.4	Polyaniline anchored metal catalysts and its applications	9
1.5	References	20
1.6	Objective of work	24

Chapter 2	Synthesis of polyaniline anchored metal catalyst and its applications	25-87
	<u>Section-I</u> Synthesis, characterization and applications of polyaniline anchored palladium for C-C coupling and one-pot reactions	
2.1.1	Introduction	25
2.1.2	Results and discussion	27
2.1.2.1	Synthesis and characterization of polyaniline and palladium anchored polyaniline	27
2.1.2.2	Applications of supported catalyst for Mizoroki-Heck and Suzuki reactions	29
2.1.2.3	Applications in one-pot reactions	32
2.1.3	Conclusion	36
2.1.4	Experimental section	36
2.1.5	References	66
	<u>Section-II</u> Synthesis, characterization and application of polyaniline supported FeCl₃ for one pot Biginelli reaction	
2.2.1	Introduction	68
2.2.2	Results and discussion	70
2.2.3	Conclusion	79
2.2.4	Experimental section	79
2.2.5	References	86

Chapter 3	<i>Heterogenization of polyaniline on solid support: Synthesis, characterization and applications of Celite-PANI-Pd for organic transformations</i>	88-173
	<i>Section-I Synthesis, characterization and applications of Celite-PANI-Pd for Suzuki, sunlight Suzuki and one-pot combinations with Suzuki reaction</i>	
3.1.1	<i>Introduction</i>	88
3.1.2	<i>Results and discussion</i>	89
3.1.2.1	<i>Synthesis and characterization of Celite-PANI-Pd</i>	89
3.1.2.2	<i>Applications of catalyst for Suzuki reaction</i>	95
3.1.2.3	<i>Applications in one-pot reactions</i>	103
3.1.3	<i>Conclusion</i>	108
3.1.4	<i>Experimental Section</i>	108
3.1.5	<i>References</i>	138
	<i>Section-II Application of Celite-PANI-Pd for chemoselective hydrogenation reactions</i>	
3.2.1	<i>Introduction</i>	142
3.2.2	<i>Results and discussion</i>	143
3.2.3	<i>Conclusion</i>	153
3.2.4	<i>Experimental Section</i>	153
3.2.5	<i>References</i>	170
Chapter 4	<i>Synthesis and characterization of Benzochalcogendiazole based fluorescent organic molecules using Polyaniline supported Pd</i>	174-226
4.1	<i>Introduction</i>	174
4.2	<i>Results and discussion</i>	177
4.2.1	<i>Synthesis Of benzochalcogendiazole based fluorescent organic molecules by Suzuki & Heck reaction using PANI-Pd</i>	177

	4.2.2 Applications of PANI-Pd in one-pot Wittig-Heck reaction to study effect of R group effect in	190
	4.3 Conclusion	195
	4.4 Experimental section	196
	4.5 References	225
<hr/>		
Chapter 5	Synthesis and characterization of chiral analogue of Polyaniline	227-256
	5.1 Introduction	227
	5.2 Results and discussion	232
	5.2.1 Synthesis and characterization of chiral analogue of polyaniline	232
	5.2.2 Applications of catalyst for asymmetric reactions	236
	5.3 Conclusion	242
	5.4 Experimental section	242
	5.5 References	254
