

## Acknowledgements

*Pursuing a Ph.D. is a both enjoyable and painful experience. It's just like climbing a high peak, step by step, accompanied with bitterness, hardships, frustration, encouragement and trust with so many people's kind help. When I found myself at the top enjoying the beautiful scenery, I realized that it was, in fact, teamwork that got me there. This thesis is the end of my journey in obtaining my Ph.D. Though it will not be enough to express my gratitude in words to all those people who helped me, At the end of my thesis, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study and made it an unforgettable experience for me.*

*I thank the Almighty, **Shri Ganesha** for giving me the strength and patience to work through all these years so that today I can stand proud with my head held high.*

*I would like to start with the person who made the biggest difference in my life, **my mentor, Prof. P. Padmaja**, Professor, Department of Chemistry, M.S. University of Baroda, Vadodara, for her valuable guidance, scholarly inputs and consistent encouragement I received throughout my research work. This feat was possible only because of the unconditional support provided by her. She has been there, in front of my eyes for last Six years, motivating and inspiring every bit of me towards new possibilities in life. I owe a lot of gratitude to her for always being there for me and I feel privileged to be associated with a person like her during my life. As my supervisor, she has constantly forced me to remain focused on achieving my goal. Her observations and comments helped me to establish the*

overall direction of the research and to move forward with investigation in depth. She has been supportive and has given me the freedom to pursue various projects without objection. Without her guidance and constant feedback, this PhD would not have been achievable. Under her guidance, I successfully overcame many difficulties and learned a lot. Her unflinching courage and conviction will always inspire me in future also.

I express my heart-felt gratitude to Head, **Prof. N. D. Kulkarni** and former Head **Prof. B. V. Kamath**, Department of Chemistry, M. S. University of Baroda, Vadodara for providing necessary infrastructure and resources to accomplish my research work.

My sincere thanks to **Prof. A. C. Sharma** (Present Dean, Faculty of Science, MSU) and **Prof. N. D. Desai** (Former Dean, Faculty of Science, MSU) for the immense help I received from them.

Most of the results described in this thesis would not have been obtained without a close collaboration with few laboratories.

I would like to thank **Dr. B Sreedhar**, IICT-Hyderabad and SICART for helping me in TEM analysis.

I would like to thank **Dr. Shilpa Chakra** and **Mr. Subbarao** from JNTUK, Kakinada for Raman analysis.

I would like to thank **Dr. Shripathi** and **Dr. Uday Deshpande** from CSR-DAE, Indore for XPS analysis.

I would like to thank **Dr. Vandana Rao** from Faculty of Tech & Engg., M.S.University, Vadodadara for SEM-EDAX analysis.

I would like to thank **Dr. Bharti** from Faculty of Tech & Engg., M.S.University, Vadodadara for XRD analysis.

I am highly thankful to all the in-charge teachers and instrument committee members of the different instruments,

*especially Prof. P. Padmaja and Mr. Rahul Bhatt for BET analysis, Dr. Hemant Soni for Fluorescence and Zeta-potential analysis, Prof. A.V.Bedekar and Mehul sadhu for FTIR analysis, Prof. P.Ghalsasi and Dr. Shardul bhatt for TGA analysis.*

*I am highly obliged to Mr. Nilesh patil, Mr. Jadhav, Mr. Sandip and Mr. Anil panchal from Environmental Science department, M.S.University, Vadodara.*
