*Pursuing a Ph.D. is a both enjoyable and painful experience. It's just like climbing a high peak, step by step, accompanied with bitterness, hardships, frustration, encouragement and trust with so many people's kind help. When I found myself at the top enjoying the beautiful scenery, I realized that it was, in fact, teamwork that got me there. This thesis is the end of my journey in obtaining my Ph.D. Though it will not be enough to express my gratitude in words to all those people who helped me, At the end of my thesis, it is a pleasant task to express my thanks to all those who contributed in many ways to the success of this study and made it an unforgettable experience for me.*

*I owe it all to Almighty **God** for granting me the wisdom, health and strength to undertake this research task and enabling me to its completion so that today I can stand proud with my head held high.*
