

Acknowledgment

Though only my name appears on the cover of this Thesis, a great many people have given their efforts and contribution. To start research activity and to end up with fruitful outcome is not all that easy. It is however, not possible to mention everyone by name, as I certainly would forget some of them. Those who are not mentioned, but have shared parts of my work, should know that I owe my gratitude to all of them who have made this research work possible and because of whom my Ph.D. experience has been one that I will cherish forever.

First and foremost, I would like to express my deep sense of appreciation and admiration to my supervisor cum advisor Dr. Sanjeev Kumar, Associate Professor, Applied Chemistry Department for his auspicious and priceless guidance with fruitful suggestions, kind support and constant encouragement to complete this dream of my life. His immense knowledge and interest in the subject proved to be a major contribution to this work and writing of this thesis. I could not have imagined having a better advisor and mentor for my Ph.D study.

I would like to thank Prof. N. D. kulkarni, Head, Department of Chemistry for her coherent support. I am highly grateful and deeply obliged to Prof. B. V. Kamath, former Head, Department of Chemistry, for his constant encouragement and everlasting moral support.

I am thankful to Department of Chemistry, Faculty of Science, The Maharaja Sayajirao University of Baroda for giving me an opportunity to work in the Department and making all the facilities available for my research work.

I thank my fellow labmates (Dr Arti, Dr Harsha, Umesh, Nishant, Sanjay Yadav) in for the stimulating discussions, for the days we were working together, and for all the fun we had in the last five years.

Financial support in from of fellowship from UGC Major Research Project (F. No. 37-380/2009(SR)), UGC, New Delhi and BSR Research Fellowship (F. No. 303/2010 (BSR)), UGC, New Delhi are gratefully acknowledged.

I am thankful to Prof. Ashutosh Bedekar and Dr Arpita Desai Department of Chemistry, The Maharaja Sayajirao University of Baroda for helping to solve NMR spectra.

I am also thankful to Dr. Anuradha Nerurkar and Kinnarididi, Department of Microbiology and Biotechnology, and Dr. Manoj Limay, Department of Geology, for tensiometry and POM studies, respectively.

Heartily appreciation and sincere thanks to Dr. Ranjitsinh V. Devkar and their research group (Sarmita Jana, Tejal Gajaria), Department of Zoology; Prof. Sarita Gupta and Dr. Bhavesh Mistry, Department of Biochemistry, for biological studies. Without their support, it would not be possible to conduct biological study.

All teachers and professors are heartily acknowledged for their positive and negative criticisms which channelized my way throughout the work. I am also thankful to non-teaching staff, Department of Chemistry for their kind support.

I also convey my sincere thanks to Harnish, Dr. Tarun, Dr. Komal, Dr. Nilesh Jain, Viraj, Vishwanath, Rahul Bhatt, Kanu, Dr. Puran, Sunil, Kiran, Sadhu Mehul, Ronak, Dr. Guatam, Dr. Brijesh, Dr. Sanjay Parihar, Dr. Harishbhai, Rinky, Rama, Dr. Varsha, Dr. Namrata, Dr. Ajita madam, Dr. Nilesh bhai, Mohini, Heta, Nisha, Shyam Sundar, Dr. Akheel bhai, Dr. Sardul, Ekta madam, Sanjeev bhai, Dr. Radhika, Dr. Krupa, Jigar, Aditya, Dr. Ankita, Ishani, Dr. Sanjay Verma, Dr. Soyeb, Veenita, Riddhi, Gaurav, Sneha, Sunil and all my past and present Friends and colleagues for their kind help and support to create memories.

Finally, and most importantly, with my deep sense of love, I owe my best regards to my beloved mom; Mrs Chandravaliben, papa; Mr Pankajkumar and my sister; Mrs Ruchita Patel, brother-in-law; Mr Vishal Patel and her family for their endless love, constant inspiration and powerful backbone with lots of strength, which gives me a opportunity to achieve my vision and goal. I am grateful to all my relatives and cousins for their constant encouragement and support in completion of this thesis.

(Kushan Parikh)
