

9 VITAE

The author was born on 6th May 1979 at Gargundi, Ahmednagar district, Maharashtra. After obtaining S.S.C and H.S.C. from Janata Vidya Mandir High School & Junior College, Kanhur pathar, he joined New Arts, Commerce and Science College, Parner and obtained B.Sc degree in 2000 from Pune University. Later he joined Department of Chemistry, Abasaheb Garware College, Pune and received M.Sc degree in Organic Chemistry in 2002 from Pune university. He then joined Medicinal Chemistry Department at Zydus Research Centre in July 2002 where he is currently working as a scientist. The author had contributed in the development of the molecule ZYH7 (PPAR α agonist) for the treatment of dyslipidemia and diabetes for which phase-II clinical trials have been completed successfully. He is also co-inventor of the molecule ZYG19 (GPR119 agonist) which is in phase-I clinical trial for the treatment of diabetes and obesity. He is actively involved in several projects for the treatment of metabolic and cardiovascular diseases at Zydus Research Centre.

- orally bioavailable c-5-[6-(4-Methanesulfonyloxyphenyl)hexyl]-2-methyl-1,3-dioxane-2-carboxylic acid as a potent hypoglycemic and hypolipidemic agent. *Bioorg. Med. Chem. Lett.* **2008**, *18*, 5586-5590.
7. Harikishore Pingali, Mukul Jain, Shailesh Shah, Pankaj Makadia, **Pandurang Zaware**, Ashish Goel, Megha Patel, Suresh Giri, Harilal Patel and Pankaj Patel. Design and Synthesis of Novel Oxazole Containing 1,3-Dioxane-2-carboxylic acid Derivatives as PPAR α/γ Dual Agonists. *Bioorg. Med. Chem.* **2008**, *16*, 7117-7127.
 8. Harikishore Pingali, Saurin Raval, Preeti Raval, Pankaj Makadia, **Pandurang Zaware**, Ashish Goel, Dinesh Suthar, Mukul Jain, Pankaj Patel. Novel oxazole containing phenylpropane derivatives as peroxisome proliferator activated receptor agonists with hypolipidemic activity. *Pharmazie* **2008**, *63*, 497–502.

POSTERS

1. Pankaj Makadia, **Pandurang Zaware**, Dinesh Suthar, Suresh Giri, Harilal Patel, Harikishore Pingali and Mukul Jain. Design and synthesis of novel PPAR α/γ dual agonists containing 5-Benzyl-2-methyl-[1,3]dioxane-2-carboxylic acid as potent hypoglycemic and hypolipidemic agents. Poster presented at 4th international symposium on “Advances in Cardiometabolic Research” held at Zydus Research Centre, Ahmedabad in February 2009 (ZRC Communication No.278).
2. **Pandurang Zaware**, Pankaj Makadia, Suresh Pola , Baban Thube, Darshit Patel, Pravin Patil, Priyanka Pryadarshini, Dinesh Suthar, Manan Shah, Harikishore Pingali and Mukul Jain. Design, synthesis and evaluation of novel bisoximinoalkanoic acids as PPAR α agonists. Poster presented at RBF 4th international symposium on “Advances in Cardiometabolic Research” held at Zydus Research Centre, Ahmedabad in February 2009 (ZRC Communication No.279).
3. Harikishore Pingali, Pankaj Makadia, **Pandurang Zaware**, Ashish Goel, Megha Patel and Pankaj Patel. Converting dual PPAR α/γ dual agonist to

selective α agonist: Design and synthesis. Poster presented at RBF 3rd international symposium on “Recent trends in Pharmaceutical Sciences: Advances in diabetes therapy- basic science and clinical aspects” held at Zydus Research Centre, Ahmedabad in February 2007 (ZRC Communication No.193).
