

ACKNOWLEDGMENT

My deepest thanks go to my supervisor, Prof. Shailesh R. Shah. Through his valuable guidance, encouragement and enthusiasm he gave me the comfort to find myself in the new environment so I could finally start to grow as a scientist. His trust and support have slowly built my confidence, and the freedom to explore the chemistry he offered, inspired my true passion for science. I am deeply thankful for his support and the attention he lavished on my scientific development. I would like him to know how grateful I am not only having him as my research advisor, but simply for having known him.

I am grateful to the UGC RFSMS, New Delhi and temporary teaching positions at the Department of Chemistry, The Maharaja Sayajirao University, Baroda for financial support in the form of fellowship and salary during my research tenure.

I am thankful to Department of Chemistry, The Maharaja Sayajirao University, Baroda and the Prof. N. D. Kulkarni, Head and Prof. B. V. Kamath, former Head for providing infrastructure facilities to conduct my research work and giving me an opportunity to join the department for pursuing my research work.

I would like to acknowledge DST-PURSE and DST-FIST funded 400 MHz NMR and Single crystal X-ray diffractometer facilities at the Maharaja Sayajirao University, Baroda.

I am very grateful to Zydus Research Center, Ahmedabad, India for providing TOF MS ES analysis as well Dr. Balaram S. Takale – WPI-AIMR, Tohoku University, Japan for HRMS analysis.

I am thankful to Dr. Ravi Kumar and Dr. Balasubramanian Sridhar, CSIR- IICT, Hyderabad for single crystal X-ray diffraction analysis.

I would like to offer special thanks to Dr. Arpita S. Desai for her valuable guidance and support to carry out solution studies.

I am thankful to Mr. Afsar Ali Siddiki, Institute of Chemical Technology (UDCT), Mumbai for the bioactivity screening study.

Words could never express my gratitude towards two of the most lovable persons of my life- My Parents for their tremendous love, encouragement, contagious optimism for motivating me to higher achievements and inspiring my independence.

I thank my loving brother Mr. Rohen Thakore for his sacrifices, patience and understanding to pursue my dreams and become successful in career and life both.

Sincere thanks and affection is extended to an amazing man in my life my dearest bunny-Balaram S. Takale both professionally and personally for all the extraordinary conversations, openness, friendship and his selfless love.

Eternal appreciation is given to Dr. Harish Talele, Mr. Harnish Soni and Mr. Aditya Khanvilkar for taking care and showing concern while working late nights in the laboratory.

I thank some of my research colleagues especially Sanjay Parihar, Hemant Mande, Shyam Sundar for their gesture and helpful hand during my research work. I specially thank Dr. Rina Soni for being there to support and help, for the care and concern and moreover for the fun loving time we spend for short period.

I thank all the non-teaching members of the department especially Revathi mam, Dineshbhai, Bhrambhattbhai, Ravalbhai, Makwanabhai for their co operation whenever needed.

I sincerely bow down and join hands to The Almighty for giving me the strength and ability to deal with tough situations and challenges in last few years to achieve my goal and rise high.

Thakore Ruchita Rajendra
