intellectual spirit and indescribable support to me throughout my life are invaluable. I am very grateful about your care, love, affection and trust in me and further thank you for your constant interest and positive stimulation.

This acknowledgement will remain incomplete without a special thanks to my mummyji, Meenaben V. Desai. After marriage a girl has to perform many duties as a daughter in law but mummyji took all the household responsibilities and never ever let me felt of being a daughter in law which helped me a lot to concentrate and focus on my work. A very warm and heartily thanks to you mummyji for all your efforts and blessings.

I heartily appreciate his understanding and quality of standing up right behind me to support during the last but extremely important phase of my research work. Very special and unexplainable thanks to him to help me out as and when needed, inspite of having busy and hectic clinic schedules. Words will always be less to explain his role as my friend, philosopher, guide, assistant and my life partner.

I would also like to express my gratitude to all those whom I may have failed to mention above, but nonetheless have contributed to my research studies in one way or the other.

Above all, I have no words to thank the Almighty GOD for giving me inspiration and sustainable strength and easing my difficulties and opening the doors of success to contribute to the society.
