

LIST OF TABLES

3.1	Sample	70
3.2	Variables, tools and obtained measures	73
4.1	Mean intelligence scores of schools in the ITV group	105
4.2	One-way analysis of variance with respect to scores on intelligence for the ITV schools	106
4.3	Mean intelligence scores of schools in the Non-ITV group	106
4.4	One-way analysis of variance with respect to scores on intelligence for the Non-ITV schools	107
4.5	Significance of mean difference on intelligence between ITV and Non-ITV group	108
4.6	Means of ITV and Non-ITV groups on variables under study	110
	Two-way (treatment x caste) analysis of variance with respect to scores on:	
4.7	time (Curiosity Box)	115
4.8	things (Curiosity Box)	116
4.9	questions (Curiosity Box)	117
4.10	curiosity index (Curiosity Cards)	118
4.11	meaningful questions (Inquiry Card)	119
4.12	number (Instances Procedure)	121
4.13	uniqueness (Instances Procedure)	122
4.14	fluency (Picture Construction)	123
4.15	originality (Picture Construction)	124

4.16	flexibility (Picture Construction)	125
4.17	language fluency	127
4.18	language refinement	128
4.19	attitude towards school	130
4.20	motivation	131

Two-way (treatment x intelligence)
analysis of variance with respect
to scores on:

4.21	time (Curiosity Box)	134
4.22	things (Curiosity Box)	135
4.23	questions (Curiosity Box)	135
4.24	curiosity index (Curiosity Cards)	136
4.25	meaningful questions (Inquiry Card)	136
4.26	number (Instances Procedure)	138
4.27	uniqueness (Instances Procedure)	138
4.28	fluency (Picture Construction)	139
4.29	originality (Picture Construction)	139
4.30	flexibility (Picture Construction)	140
4.31	language fluency	141
4.32	language refinement	142
4.33	attitude towards school	143
4.34	motivation	144

Interaction effects of treatment x
caste on:

4.35	curiosity measures	146
4.36	creativity measures	147
4.37	language measures	148
4.38	attitude measures	149
