

ACKNOWLEDGEMENTS

A journey is easier when you travel together. Milestones in life are achieved, not by individual efforts but by blessings and guidelines of elders, nears and dears. At this juncture, I express my sincere gratitude to all those who have supported me to achieve this phenomenal mark.

I express my deep sense of gratitude to my research guide **Dr. Mukul Jain**, who extended his untiring & selfless support throughout my work. He always encouraged me by suggesting different ways to keep my spirit high. His mentorship has been invaluable throughout my research work. It is difficult to overstate my gratitude to him. He has been a pillar like support.

I am indebted to **Shri. Pankaj R. Patel**, CMD, Zydus Cadila for giving me an opportunity to do Ph.D, encouraging me at times to excel in life and for providing the necessary facilities/infrastructure.

My sincere acknowledgement to **Prof. B. V. Kamath** and **Dr. Shailesh Shah**, Department of Chemistry, M.S. University of Baroda for their support.

Special thanks to Dr. Harikishore Pingali for helping me to achieve my goals in Ph.D, specifically during preparation of manuscript and thesis as well. He was always supportive and willing to help me during this research work which otherwise would have been difficult. Thanks are also due to Dr. Rajesh Bahekar for his continuous support.

I would also like to thank my lab colleagues Jaymin Barot, Manoj Hande, Amitgiri Goswami, Archana Gite, Sujay Basu and Atul Ghoda for their continuous support and involvement.

I am extremely thankful to Dinesh Suthar and Maanan Shah for *in vitro* biological evaluation of the compounds.

I am also thankful to Dr. Suresh Giri and Dr. Rajesh Sunder for conducting animal experiments and Mr. Harilal Patel for conducting Pharmacokinetic studies.

I am also thankful to Dr. Neha Gandhi for her moral support, encouragement and guidance in the preparation of thesis. My due thanks to Krunal Soni and Pankaj Makadia for their support and involvement during the preparation of manuscript.

I extend my thanks to Mr. Kaushik Banerjee for his whole hearted support and encouragement throughout this work.

The work would have not completed without the help provided by the analytical group. My sincere thanks to Jigar Gajjar for recording the NMR spectras.

I am extremely thankful to Sairam Kalapatapu for his help in molecular modeling studies.

Grateful acknowledgement goes to my friends and colleagues Dr. Brijesh Srivastava, Vrajesh Pandya, Dr. Sameer Agarwal, Anil Argade, Pandurang Zaware, Dr. Pravin Thombare, Kiran Shah, Sanjay Gite, Dr. Jigar Desai, Pinkal Prajapati, Jignesh Yadav, Mitul Sorathiya, Anshul Satyanand and Digvijay Jogiya.

I also take this opportunity to express my sincere thanks to Shardul Bhatt.

I am extremely thankful to Dr.Umang Trivedi, Chetan Barot and Falguni Desai for their cheerful co-operation and the help.

My heartfelt thanks to Mrs.Clarine Pathak & H.R. Department at ZRC for their timely help and support. I am extremely thankful to Mr. Natubhai Prajapati and Darshan Mahashay for their support

My heartfelt thanks to Mr. Saurin Raval my husband for his continuous support and involvement during this research work which otherwise would have been difficult.

Finally, no words can express the feelings towards my parents and my daughters Kanchi and Dhrumi, who have contributed and sacrificed a lot to reach me at this stage and will always remain a sole source of inspiration in my life.

Preeti Desai
