

LIST OF TABLES

		<u>Page</u>	
Table	1.0.0.0	Showing the major steps of the change process.	4
-	2.1.0.0	Showing the criterion and variate variables of the present study.	64
-	2.2.0.0	Showing the distribution of ninety-five educational resource systems on the basis of their levels.	67
-	2.3.0.0	Showing distribution of items questionnairewise.	71
-	2.3.1.0	Showing distribution of items on various dimensions.	72
-	2.3.2.0	Showing the distribution of the statements for the three questionnaires	89
-	2.3.3.0	Showing dimension-wise break-up of items in the questionnaires of first and final draft	89 - 90
-	2.4.0.0	Showing the distribution of the various levels of educational resource systems which responded to the questionnaires.	93
-	3.0.0.0	Showing mean score of the CERS, PDI and PCI of the ERS	100
-	3.1.0.0	Showing the mean score of the characteristics of the educational resource system	102
-	3.1.1.0	Showing mean percentage of national level educational resource system on linkage factor.	104 - 105
-	3.1.1.2	Showing mean percentage of state level educational resource system on linkage factor	106 - 107
-	3.1.1.3	Showing mean percentage of the regional level educational resource system on linkage factor.	108

- 3.1.1.4	Showing mean percentage of local level educational resource system on linkage factor	109 - 110
- 3.1.2.1	Showing mean percentage of national level educational resource system on structure factor	112
- 3.1.2.2	Showing mean percentage of state level educational resource system on structure factor	113
- 3.1.2.3	Showing mean percentage of regional level educational resource system on structure factor	115
- 3.1.2.4	Showing mean percentage of local level educational resource system on structure factor	116
- 3.1.3.1	Showing mean percentage of national level educational resource system on openness factor	119
- 3.1.3.2	Showing mean percentage of state level educational resource system on openness factor	120 - 121
- 3.1.3.3	Showing mean percentage of regional level educational resource system on openness factor	122
- 3.1.3.4	Showing mean percentage of local level educational resource system on openness factor	123
- 3.1.4.1	Showing mean percentage of national level educational resource system on capacity factor.	125
- 3.1.4.2	Showing mean percentage of state level educational resource system on capacity factor	126
- 3.1.4.3	Showing mean percentage of regional level educational resource system on capacity factor	127

viii

- 3.1.4.4	Showing mean percentage of the local level educational resource system on capacity factor	128
- 3.1.5.1	Showing mean percentage of national level educational resource system on the reward factor	130
- 3.1.5.2	Showing mean percentage of state level educational resource system on reward factor	131
- 3.1.5.3	Showing mean percentage of regional level educational resource system on reward factor	132
- 3.1.5.4	Showing mean percentage of the local level educational resource system on the reward factor	133
- 3.1.6.1	Showing mean percentage at national level educational resource system on proximity factor	136
- 3.1.6.2	Showing mean percentage of the state level educational resource system on proximity factor	138
- 3.1.6.3	Showing mean percentage of regional level educational resource system on proximity factor	140
- 3.1.6.4	Showing mean percentage of local level educational resource system on proximity factor	142
- 3.1.7.1	Showing mean percentage of national level educational resource system on synergy factor	144 - 145
- 3.1.7.2	Showing mean percentage of state level educational resource system on synergy factor	146 - 147
- 3.1.7.3	Showing mean percentage of regional level educational resource system on synergy factor	149
- 3.1.7.4	Showing mean percentage of local level educational resource system on synergy factor	150 - 151

-	3.2.0.0	Showing mean percentage score of PDI of the educational resource system	154
-	3.2.1.1	Showing mean percentage of national level educational resource system on awareness of innovations	156 - 157
-	3.2.1.2	Showing mean percentage of state level educational resource system on awareness of innovations	158 - 159
-	3.2.1.3	Showing mean percentage of regional level educational resource system on awareness of innovations.	159 - 161
-	3.2.1.4	Showing mean percentage of local level educational resource system on awareness of innovations.	162 - 163
-	3.2.2.1	Showing mean percentage of national level educational resource system on sending experts, transplantation of innovations and selection and initiation of innovations due to financial aid, initiation by other institution and prestige	166
-	3.2.2.2	Showing mean percentage of state level educational resource system on sending experts, transplantation of innovations and selection and initiation of innovations due to financial aid, initiation by other institution and prestige.	167 - 168
-	3.2.2.3	Showing mean percentage of regional level educational resource system on sending experts, transplantation of innovations, and selection and initiation of innovations due to financial aid, initiation by other institution and prestige.	169 - 170
-	3.2.2.4	Showing the mean percentage of local level educational resource system on sending experts, transplantation of innovations, selection and initiation of innovations due to financial aid, initiation by other institution and prestige.	170 - 171

-	3.2.3.1	Showing mean percentage of national level educational resource system on survey, research reports journals and newspapers as sources of getting innovative ideas.	173 - 174
-	3.2.3.2	Showing mean percentage of state level educational resource system on survey, research reports, journals and newspapers as the sources of getting innovative ideas.	175 - 176
-	3.2.3.3	Showing mean percentage of regional level educational resource system on survey, research reports, journals, newspapers as the sources of getting innovative ideas.	176 - 177
-	3.2.3.4	Showing mean percentage of local level educational resource system on survey, research reports, journals and newspapers as the source of getting innovative ideas.	178 - 179
-	3.2.4.1	Showing the mean percentage of national level educational resource system on taking into cognizance of the suggestions made by various agencies for the development of innovations.	180 - 181
-	3.2.4.2	Showing the mean percentage of state level educational resource system on taking into cognizance of the suggestions made by various agencies for the development of innovations	182 - 183
-	3.2.4.3	Showing the mean percentage of regional level educational resource system on taking into cognizance of the suggestions made by various agencies for the development of innovations.	184 - 185
-	3.2.4.4	Showing the mean percentage of local level educational resource system on taking into cognizance of the suggestions made by various agencies for the development of innovations	186 - 187

- 3.2.5.1 Showing the mean percentage of national level educational resource system on administration of innovations and individual vs team working 188 - 189
- 3.2.5.2 Showing the mean percentage of state level educational resource system on administration of innovations and individual vs team working 190 - 191
- 3.2.5.3 Showing the mean percentage of regional level educational resource system on administration of innovations and individual vs team working 191 - 192
- 3.2.5.4 Showing the mean percentage of local level educational resource system on administration of innovations and individual vs team working 193 - 194
- 3.2.6.1 Showing the mean percentage of national level educational resource system on trial and modification and freedom and security to the subordinates. 197 - 198
- 3.2.6.2 Showing the mean percentage of state level educational resource system on trial and modification and freedom and security to the subordinates 199 - 200
- 3.2.6.3 Showing the mean percentage of regional level educational resource system on trial and modification of innovations and freedom and security to subordinates 201 - 202
- 3.2.6.4 Showing the mean percentage of local level educational resource systems on trial and modification of innovations and freedom and security to subordinates. 203
- 3.2.7.1 Showing the mean percentage of national level educational resource systems on the characteristics of innovations. 206 - 207

- 3.2.7.2	Showing the mean percentage of state level educational resource system on characteristics of innovations	208
- 3.2.7.3	Showing the mean percentage of regional level educational resource system on characteristics of innovations	209 - 210
- 3.2.7.4	Showing the mean percentage of local level educational resource system on characteristics of innovations	211 - 212
- 3.3.0.0	Showing the mean and percentage score of PCI of the ERS	215
- 3.3.1.1	Showing the mean percentage of national level educational resource system on one way communication of innovations	218 - 219
- 3.3.1.2	Showing the mean percentage of state level educational resource system on one way communication of innovations	220 - 222
- 3.3.1.3	Showing the mean percentage of regional level educational resource system on one way communication of innovations	223 - 225
- 3.3.1.4	Showing the mean percentage of local level educational resource system on one way communication of innovations	226 - 227
- 3.3.2.1	Showing the mean percentage of national level educational resource system on one way feed back communication process of innovations	233 - 234
- 3.3.2.2	Showing the mean percentage of state level educational resource system on one way feed back communication process of innovations	236 - 237
- 3.3.2.3	Showing the mean percentage of regional level educational resource system on one way feed back communication process of innovations	238 - 240

- 3.3.2.4	Showing the mean percentage of local level educational resource system on one way feedback communication of innovations	241 - 242
- 3.3.3.1	Showing the mean percentage of national level educational resource system on two way communication of innovations	246 - 247
- 3.3.3.2	Showing the mean percentage of state level educational resource system on two way communication of innovations	248 - 250
- 3.3.3.3	Showing the mean percentage of regional level educational resource system on two way communication of innovations	251 - 252
- 3.3.3.4	Showing the mean percentage of local level educational resource system on two way communication of innovations	253 - 255
- 3.4.0.0	Showing coefficient of correlation between the characteristics of the educational resource systems and the level of adoption of innovations	260
- 3.4.1.0	Showing coefficient of correlation between the level of adoption of innovations and the characteristics, namely linkage, structure, openness, capacity, reward, proximity, synergy for total ERS	261
- 3.5.0.0	Showing coefficient of correlation between the process of developing innovations and the level of adoption of innovations	262
- 3.5.1.0	Showing coefficient of correlation between the level of adoption of innovations and the stages of developing innovations, sources of getting information about innovations and shaping of innovations for total educational resource systems.	263

-	3.6.0.0	Showing coefficient of correlation between the process of communicating innovations and the level of adoption of innovations	264
-	3.6.1.0	Showing coefficient of correlation between level of adoption of innovations and the ways of communication, namely, one way, one way feed back and the two way communication of innovations for the total educational resource systems	265
-	4.1.0.0	Showing examples of the whole process	297

LIST OF FIGURES

1.0.0.0	Showing the one way feedback communication of innovation	25
1.1.0.0	Showing innovation process	56
1.2.0.0	Showing direction of communication process	57
4.0.0.0	A schematic representation of the characteristics of educational resource system, process of developing and process of communicating innovations	297

LIST OF APPENDIXES

1.0.0.0	List of educational resource system	336 - 340
2.0.0.0	Final draft of Questionnaires	341 - 372
2.1.0.0	Identifying data sheet	342
2.2.1.0	Questionnaire on the characteristics of the educational resource system	343 - 353
2.2.2.0	Questionnaire on the process of developing innovation	354 - 363
2.2.3.0	Questionnaire on the process of communicating innovation	364 - 372
2.3.0.0	Rating Scale	372
